**Allowable subject matter**

Claims 1-19 and 26-27 are allowed.

The following is an examiner's statement of reasons for allowance:

The prior art neither discloses nor suggests the following limitations in combination with the remaining elements as disclosed in the independent claims:

- the control circuitry being operative to illuminate the color-controllable light with a color scheme by repeatedly time-multiplexing color-control signals at the red, the green, the blue color-control outputs to the first and the second sets of color-controllable lights with use of the one or more set selection outputs at a rate of 32 Hertz or greater such as required by claim 1;
- the steps of receiving a user switch setting of a plurality of user-selectable switch settings associated with a plurality of color schemes of the decorative lighting apparatus, selecting the color scheme in response to the user switch setting, producing the color scheme in the decorative lighting apparatus;
- the control circuitry being operative to illuminate the color-controllable lights with a different color scheme for each user selectable switch setting by repeatedly time-multiplexing color-control signals at the red, the green, and the blue color-control outputs to the first and the second sets of color-controllable lights

Art Unit: 2163

with use of the one or more set selection outputs such as required by claim 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
